

# CHIRAG MEDHORA

I'm an engineering leader with 16 years of tech experience. My strengths are: getting ideas to market in weeks, running growth teams, carefully executing re-orgs, and being a hands-on full-stack engineer.

## EXPERIENCE

### 4y ● Independent Consultant

Software engineering consultant with a few preferred engagements: partnering with non-technical founders to build & launch their ideas, shaping org design within larger engineering teams, consulting with subscriptions-based growth teams.

Clients: Abstract, Atheva, Substack, Tangelo, Yem.

### 4y ● Quizlet, Sr Eng Manager ← Eng Manager ← Tech Lead

Led 15 engineers across growth, infra, and product teams. Re-org'd the Subscriptions teams to take on larger feature-based growth projects, in addition to rapid A/B testing.

X-team, x-functional owner of: eng interview process across roles & levels, service observability, chronic tech debt reduction, monetization check metrics.

### 3y ● Glassdoor, Eng Manager ← Tech Lead ← Sr Engineer

Led 10 engineers across 2 teams. Owned the job search experience, CPC revenue tracking, front-end architecture, migration from monolith to microservices.

Built Glassdoor's first monetizing PLG flow: self-serve job postings.

### 1y ● Roblox, Sr Engineer

Built Roblox's highest trafficked and most monetizing page (roblox.com/games). Launched the Developer Exchange program, allowing community creators to monetize their games.

### 3.5y ● Epic, R&D Team Lead ← Software Engineer

Led a team of 5 in developing safety-critical clinical software for use in cardiology procedures.

## EDUCATION

### 1y ● Carnegie Mellon University, MS in Computer Science

GPA 4.0. Member of the team that won the \$10,000 final project competition.

### 4y ● University of Mumbai, BS in Computer Science

GPA 70%. Chairperson of the college's National Service Scheme.
